DETAILED ACTION

The Examiner acknowledges the applicant's submission of the amendment dated 9/6/07. At this point, claims 13-42 have been cancelled.

The instant application having Application No. 10/711,792 has a total of 12 claims pending in the application, there are 2 independent claims and 10 dependent claims, all of which are ready for examination by the examiner.

1. EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following is the Examiner's Amendment:

Please amend the title to "METHOD OF PREFETCHING USING A INCREMENTING/DECREMENTING COUNTER".

2. STATEMENTS OF REASONS FOR ALLOWANCES

The Reasons for allowances for claims 1-12 can be found below:

The following is an examiner's statement of reasons for allowance:

Claim 1 recites the limitation of "pre-fetching a predetermined data from the memory and subtracting a first value from the counter value each time pre-fetching is activated." This limitation is taught by the specification at least at page 5, paragraph 16 and as argued by the Applicant on pages 10-11 of the response filed on 4/10/07. This

Art Unit: 2187

limitation, in combination with other recited limitations of claim 1, is not taught or suggested by the prior art of record.

Claim 7 recites the limitation of "pre-fetching a predetermined data from the memory and adding a first value to the counter value each time pre-fetching is activated." This limitation is taught by the specification at least at page 9, paragraph 26 and as argued by the Applicant on pages 13-14 of the response filed on 4/10/07. This limitation, in combination with other recited limitations of claim 7, is not taught or suggested by the prior art of record.

Claims 13-42, which were previously rejected, have now been cancelled by the Amendment filed 9/6/07.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. RELEVANT ART CITED BY THE EXAMINER

The following prior art made of record and not relied upon is cited to establish the level of skill in the applicant's art and those arts considered reasonably pertinent to applicant's disclosure. See **MPEP 707.05(c)**.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. These references include:

Choubal et al. (US PG PUB 2005/0210202 A1), which teaches managing input/output (I/O) requests in a cache memory system.
